1. Overall AI Visibility Grade

The first section has an **AI visibility grade** based on what checks are passed during the assessment. There's a **brief summary** of the findings, which notes strengths and weaknesses, and whether improvements are needed, followed by the **list of pages analyzed**.

61 / 100

42 of 73 checks passed across 9 page(s)

www.examplelawfirm.com has a foundation for AI visibility but significant gaps remain across several areas. AI assistants may reference your firm, but competitors with stronger signals will be cited more often and more accurately.

2. AI Readiness Breakdown

The second part of the *AI Readiness Check* shows a breakdown of what's assessed. The website is **scored on six core factors** that affect a law firm's AI visibility. Each category has a simple explanation of what the diagnostic tool looked for when determining the score. LawOnline.Ca recommends firms address anything below 80.

In this example, there are several low scores that indicate significant improvements could be made to become AI-ready and improve AI visibility.

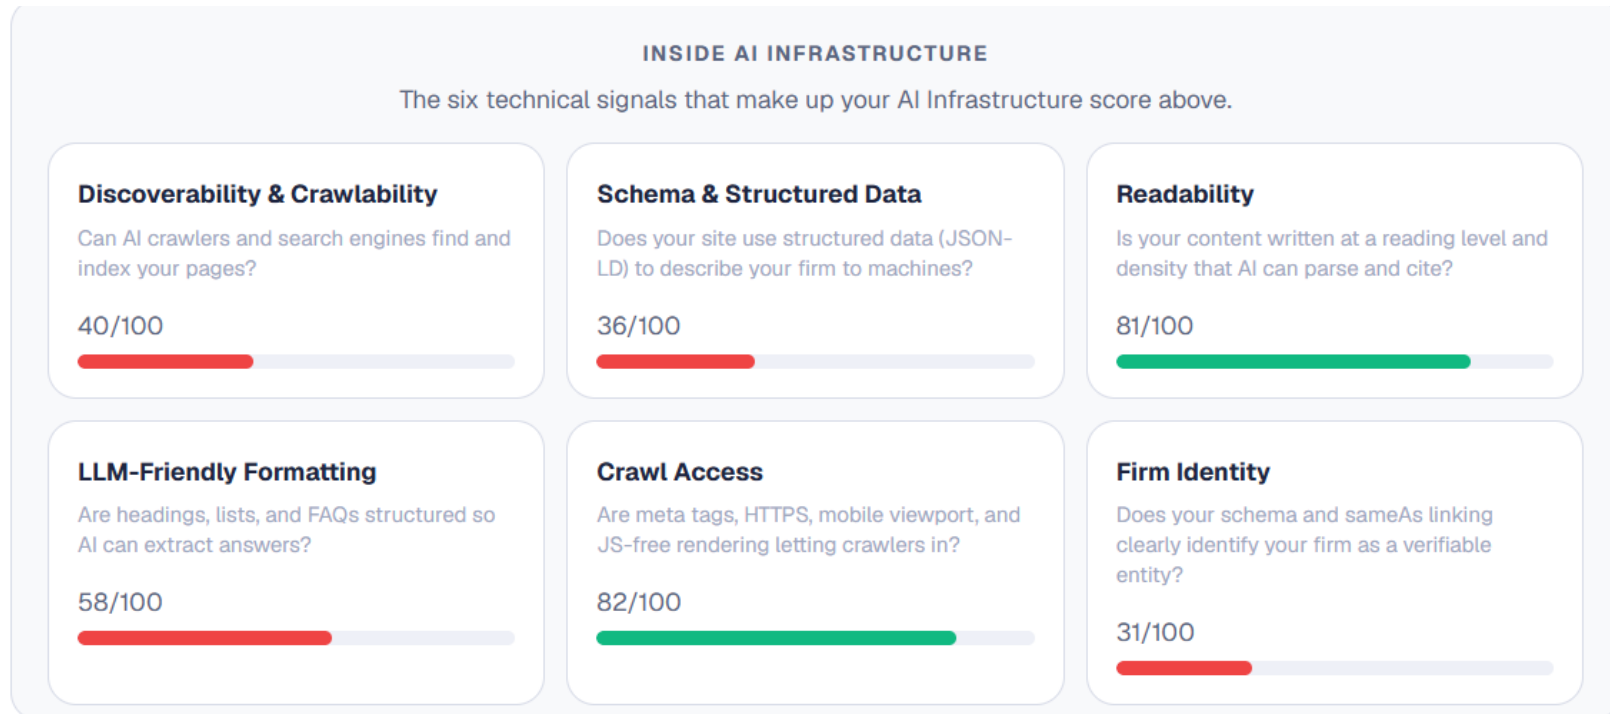

AI Readiness Breakdown

3. Inside Infrastructure

This part focuses on the **technical components** that are specific to the website framework needed for AI visibility. From discoverability to readability, the diagnostic tool assesses six signals, which are used to score the AI Infrastructure category in the above breakdown.

4. Key Findings

The last part of the *AI Readiness Check* report lists **five high-priority recommendations**. If addressed, these key changes, updates, and opportunities will improve the firm's website's AI visibility.

Key Findings

Legal Schema Markup high impact

No Attorney/LegalService/LawFirm schema markup found. This structured data helps Google display rich results for your firm.

Office Hours high impact

No office hours found. Display hours prominently and in schema markup for Google rich results.

Google Business Profile Signal medium impact

No link to Google Business Profile found. Linking to your GBP helps visitors leave reviews and find your location.

OpenGraph Tags medium impact

0/6 OpenGraph tags found (title: missing, description: missing, image: missing, type: missing, url: missing, siteName: missing). Complete OG tags help AI systems understand your page when it appears in citations and social shares.

Legal Industry Schema medium impact

No business or legal schema found. AI assistants cannot reliably identify what your firm does. Add Attorney or LegalService schema markup.
